

Service and System Suppliers Receive Accreditation

Each year and for over 20 years, senior consultants at Goodacre UK review services and systems provided to regulated companies. Those firms considered to be providing services in a satisfactory way are invited to list their details on <http://systemsinthecity.co.uk/>.

These providers may also apply for the annual GoodAccredited standard. The review process for these applications includes obtaining feedback from users of the respective systems. The standard is allocated to those suppliers which meet specified criteria.

This year, a record number of applications have been received. The first set of firms to receive the GoodAccredited Standard 2014 are:

3i Infotech

Advent

Allfunds Bank

Avaloq

Babel Systems

BITA Risk

Bravura Solutions
